

APPLICATION QUESTIONNAIRE VERIFICATION

Please supply your name, position, company and contact details	
--	--

The purpose of this questionnaire is to gather sufficient information to enable SGS to send you a proposal for verification of your CDM project.

All information and documentation provided in association with this application form, which are not already public, will be treated confidentially and used solely for the purpose of preparing a technical and financial proposal for the work required.

The questions below cover the minimum information required for preparation of a proposal. Please complete all questions or alternatively, you can provide SGS with a final version of the PDD, a current version of the monitoring plan and a copy of the validation report. If you provide SGS with these documents, all information requested below must be available in the documents!

Section 1 General information:

Name of project	
Has your CDM project activity been registered by the CDM Executive Board	YES <input type="checkbox"/> / NO <input type="checkbox"/> If yes, please provide registration details
DOE who performed the validation	
If previously verified, verification company used	
Who is implementing the project? Please provide contact details.	

Section2 Services required:

Do you require an initial verification for this project	
Timing of the periodic verifications (for example once per year)	
Proposed duration of the contract	

Section 3 Travel arrangements:

Please describe the exact location of the project:	
Nearest airport and major city.	
Travel time from nearest airport / major city	
Are there any health & safety training requirements for visiting the site (if yes, please give details)	

Section 4 Timing:

Proposed start date for the verification exercise	
The stage of implementation of the project	

Section 5 Information about the project:

Total Estimated CERs over project life:	
Estimated CERs generated since last verification or start of project:	
Proposed Crediting Period:	
Have any modifications been made to the Monitoring Plan? If yes, please describe.	
Does the monitoring plan require monitoring of both the baseline and with-project scenarios or the with-project scenario only (i.e. is the baseline an ex-post baseline)?	
Does the monitoring plan include steps to monitor leakage?	
Does the monitoring plan include environmental and social parameters? If yes, please detail
